Covid Update

We would like to take this opportunity to remind teams of the covid protocols that will be in place at the event.

There have been many changes to the covid restrictions across the country in the past few months and it is important that we are all respectful of one another. Some may choose to not wear a mask, some may choose to remain masked for the entirety of the event. That will be a personal decision and we ask that everyone **please remain kind and respectful to one another no matter what.**

Teams must be aware that they need to have some of their own plans in place should Covid rear its head at the event.

- Do you have a plan if someone on your team tests positive?
- Do you know how long you need to isolate for?
- Do you know the rules for your airline / hotel / isolation period in the case of a positive test?
- Are you aware of the public health regulations in Alberta, Canada? Here are two links for the most up to date information:
 - [Alberta](#)
 - [Canada](#)

****Please note****

- Ringette Canada can provide rapid test kits and N95 masks upon request. If you require a test kit or masks, please contact the Director of Competitions.

What happens if a team is unable to play due to a COVID outbreak?

- If you are unable to field a team due to players being ill, then you will forfeit the game to the other team and the score will go forward as a 1-0 loss for the opposing team.
- We are not in a position to reschedule games over the course of the event.
- If a team must pull out of a game, then the opposing team will be permitted to run a training session on the ice during that time should they wish to do so.
